

TLR33 TRAILER

TILT BED DESIGN. The tilt bed design helps make it more convenient to load and unload without ramps.

WHEEL CHOCK LOCATION. There are seven holes available to position the chocks as needed for different sized machines.

VERSATILITY. The TLR33 trailer comes with several different tie-down system options to meet your transporting needs.

TRANSPORT. Bolted on safety chains helps give peace of mind when traveling on the road with equipment loaded on the trailer. Plus a common 2" (5.1 cm) ball hitch to accommodate most towing vehicles.

SURFACE TRACTION A replaceable "expanded metal" floor, this material is bolted to the trailer deck and provides traction for loading and unloading of equipment.

OPTIONAL BRAKES. The TLR33 trailer comes with the option to include electric brakes for better towing control.
