## Vermeer 504 Pro Baler

### **:30 Second Radio:**

It's hard work baling silage day in and day out.

So you know it helps to have a baler that can keep up.

The Vermeer 504 Pro baler is built to handle the demands of heavy, wet material for frequent silage baling.

The 5 foot by 4 foot variable chamber has heavy drive components you can count on, and offers the features and versatility to produce high quality bales in both wet and dry hay conditions.

Unlike your son-in-law, this baler comes ready to work.

Learn more about the 504 Pro baler by visiting     (Dealership's name)    , in     (Dealership's town)     today.
