

Vermeer® BPX9000 Bale Processor

:30 Second Radio - BPX9000 Bale Processor (Option 2)

The BPX9000 Bale Processor from Vermeer is simple, durable and versatile. And in a winter with short feed supplies, it gives you an easy way to stretch your hay supply and better control how much hay you're feeding.

The BPX9000 blows away dust and mold, making the hay more palatable for your cattle and ultimately saving your hay. And the optional scale kit helps you to control feed intake in your herd. Process what you want, when you want, and stretch your hay supply further this year with the BPX9000 Bale Processor from Vermeer.
