

Vermeer® R2300 TwinRake Radio Script

:30 Second Radio – R2300 TwinRake

Have you heard the news from Vermeer? About the R2300 TwinRake? Now it's even easier to operate and transport.

The R2300 TwinRake gives you the proven durability and the exceptional resale value of a TwinRake. That's right! This is the one with matching 6-bar baskets and large tires to cushion the ride and smooth out the turns ... the one that rakes 18 to 23 feet wide and makes those custom-formed, box-style windrows to match your baler pickup and help you reduce your hours during those hot summer days. And, now it folds and unfolds hydraulically in seconds ... from the tractor seat.

:60 Second Radio – R2300 TwinRake

Have you heard the news from Vermeer? The R2300 TwinRake hydraulically folds and transport easier?

The new twin-basket R2300 is hydraulically adjustable and makes custom-formed box-style windrows from 3 to 6 feet – perfect for your baler. Rake widths – from 18 to 23 feet for speed and convenience. And you can fold and unfold – in seconds – from the tractor seat, and since it folds to just 8 feet 5 inches – it transports with ease.

You also get the proven durability and resale value Vermeer TwinRakes.

The R2300 is classic Vermeer. Solid. With matching 6-bar baskets ... a round cross-section toolbar with floating front reel spindles ... large tires that cushion the ride, smooth the turns. Adjusting for height and basket pitch is easy. It's available with hydraulic basket speed control for different crop conditions.
