# TAKE ON TREE CARE

Crews like yours help local tree populations thrive, whether you're planting new trees, trimming existing ones or clearing stumps. Our lineup of compatible attachments touches every part of a tree's lifecycle — so you can get all the tools you need in one place.

## LOG GRAPPLES

Keep your brush chipper working with a grapple designed to feed large logs and navigate tight spaces.

## BRUSH GRAPPLES

Stay organized. Stack brush, limbs and branches around the jobsite without taking soil with you — thanks to an open-tine design.

## ROOT RAKE GRAPPLES

Clean up your work with a grapple engineered to rip out roots, rake jobsites and clear debris.

## TREE FORKS

Need to plant some trees? Get balled trees where they need to go with a tree fork.

## AUGERS

Take the strenuous work out of planting trees. Create holes with diameters up to 36 in (91.4 cm) with our auger lineup.

## STUMP CUTTER

No need to bring additional equipment on the job. Remove stumps with just one attachment.

# SHAPE THE LANDSCAPE

Our attachment lineup is designed to transform outdoor spaces, from prepping land to final plant and hardscape installation. Moving from one task to the next is as simple as changing out the attachment on your machine.

## **PALLET FORKS**

Transport sod, bags of mulch and pavers on pallets or directly on the forks.

## **HARLEY RAKES**

Minimize soil preparation time with a tool designed to shape and contour the landscape.

## **DOZER BLADES**

Level jobsites and backfill trenches with one tool. No shovels needed.

## **SOIL RENOVATORS**

Prepare seedbeds in just one pass.

## **ROCK BUCKETS**

Streamline rock collection. This bucket picks them up while leaving soil in place.

## **HIGH DUMP BUCKETS**

Clear high walls without changing equipment.

### **TRENCHERS**

Create clean trenches for irrigation and lighting projects with attachments made to cut through dirt quickly.

### **4-IN-1 BUCKETS**

Bring versatility to a new level with a loader bucket, clam, grapple, dozer, box scraper and bottom dump bucket all in one.

### **AUGERS**

Take the hard work out of digging. Create holes with diameters up to 36 in (91.4 cm).

# GET UNDERGROUND

You keep customers connected with irrigation and utility installation. We engineer attachments that help you get the job done. These tools can streamline your work while you break new ground.

## **TRENCHERS**

Cut a clean trench and install product fast.

## **VIBRATORY PLOWS**

Cut narrow trenches for small utilities — all with minimal jobsite cleanup.

## **AUGERS**

Quickly dig consistent, clean holes with diameters up to 36 in (91.4 cm) lineup.

## **ROOT CUTTERS**

Clean up quickly. This attachment slices through roots near driveways and sidewalks.

# CLEAR THE WAY

The first step in starting a new project: demolition and site prep. Find everything you need to get it done in our attachment lineup.

## **TOOTH BUCKETS**

Ready to break into tough ground? Tooth buckets are designed to help you level, shape and grade your jobsite.

## **SCRAP GRAPPLE**

Streamline site clearing. Pick up concrete, metal, wood and more. Then, grade the ground to finish the job.

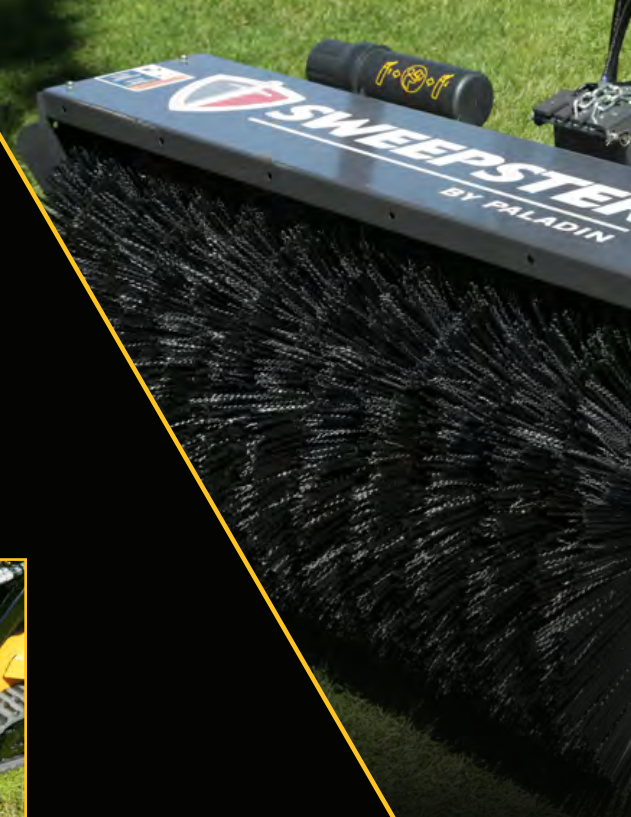

## **BREAKERS**

Break through concrete or rock with ease.

## **ROTARY BROOMS**

Start your work with a clean slate by quickly sweeping away debris.

# GET MOVING

You have better things to do than manually move materials across the jobsite. The right attachments can streamline material handling. No grueling work required.

## **PALLET FORKS**

Work your way. Material can be placed directly on the forks or lifted with a pallet.

## **HIGH-VOLUME BUCKETS**

Load up more materials in fewer trips with larger bucket sizes.

## **GRAPPLES**

Take control of your work with a lineup designed for efficiency.

# LET IT SNOW (THEN REMOVE IT)

Vermeer mini skid steers and ATXs are engineered to work in all kinds of conditions — including snow. Clear sidewalks, driveways or parking lots with attachments created for cold weather.

## **PUSHER**

Handle high volumes of snow with a tool designed to contain the material as it moves.

## **BLADE**

Move smaller volumes of snow out of the way fast.

## **SWEEPER**

Brush away snow (and debris) for quick cleanup in cold weather.
