## Vermeer® BPX9000 Bale Processor

### :30 Second Radio – BPX9000 Bale Processor

Before developing the BPX9000 bale processor, Vermeer asked customers what they really wanted and needed in a bale processor, and the same answers came back again and again.

Simplicity. Durability. And versatility.

So that's the bale processor Vermeer built.

The BPX9000 bale processor helps maximize productivity, is easy to operate, and requires less maintenance time.

Plus, an optional square bale kit gives this round bale processor the ability to process large square bales as well.

Stop by \_\_\_\_\_ in \_\_\_\_\_ today and see the all-new BPX9000. It's the bale processor you asked for.
