

BALEAGE ON THE MOVE.

The Vermeer SBW-series single bale wrappers allow producers to follow the baleage trend and wrap high-moisture bales in individually wrapped, high-nutrition packages. Ideal for small- to mid-sized operations, the SBW8000 and SBW8500 single bale wrappers are designed to help optimize production and operator convenience. A new in-cab electronic control system features a color touchscreen that provides an automated wrapping process and access to real-time field statistics. With a durable frame and loading arm, these wrappers allow producers to wrap bales in the field and produce individually wrapped packages that are convenient to transport.

Vermeer Corporation reserves the right to make changes in engineering, design and specifications; add improvements; or discontinue manufacturing or distribution at any time without notice or obligation. Equipment shown is for illustrative purposes only and may display optional accessories or components specific to their global region. Please contact your local Vermeer dealer for more information on machine specifications.
