

Vermeer® Rebel 5420/5520 Baler

:60 Second Radio – Rebel 5420/5520 Baler Radio Commercial

For more than a decade, Rebel Balers have helped you roll your own bales on your own schedule ... with lower horsepower tractors ... without sacrificing speed or performance.

Of course, today's new Rebel 5420 and 5520 balers are still modeled after the classic Rebel design. So, price-wise, it's still a great value and a great performer ... and all you need is that same 40-horsepower tractor to roll great-looking 5 by 4 bales ... or a 50-horsepower tractor to roll 5 by 5 bales.

Just drop the hitch pin ... hook up your hoses and connectors ... and you're ready to roll with a new improved balanced bale density system ... ready to catch more hay with the optional haysaver wheels ... ready to save time with the exclusive Drop 'n Go bale ejection feature ... and ready to make quick and easy adjustments with the turn of a wrench.

Come visit us today at _____ in _____ and see the new Rebel 5420 & 5520 balers. They're just like prior models of Rebel balers from Vermeer – always a great value and great performer.
