Vermeer® Final Cut™ FPX9000 Bale Processor

:30 Second Radio:

Cattle can be pretty picky about their feed. They want material that's just the right length. And if it's not, they'll sort when they should be feeding. It's time to put a stop to that. The Final Cut FPX9000 bale processor from Vermeer sends bales through multiple cutting points to deliver average cut lengths of one and one-fourth inch to four inches. It's been shown to increase feed efficiency in cattle. So give 'em what they're looking for. Find the Vermeer Final Cut FPX9000 bale processor at _____ Dealership _____ in _____ Town _____.
