Vermeer® BW5500 Bale Wrapper

:30 Second Radio:

Get fast wrapping times and operational control with the Vermeer BW5500 bale wrapper.

It features three film pre-stretchers – one more than most competing models – for faster wrapping and less load time.

Optimize wrap use with an easy-to-use digital controller.

And an automated bale counter with easy-to-read LCD screen and resettable counts makes it convenient to track operational data.

Come see us today at Dealership , in Town and ask about the new inline bale wrapper from Vermeer.

Line 'em up!
